

2803 siaron y

the top performer in industrial belt sanding

2803 siaron y

the top performer in industrial belt sanding

The special 2803 siaron y series is designed for high-alloy steels and other hard to grind metals, it comes into its own in applications such as the industrial surface treatment of weld seams and transitions as well as the removal of mill scale – thanks to a combination of high stock removal rates, low surface pressure and extremely long life.

- ▶ Active additives with a cooling effect greatly reduce discolouration
- ▶ Excellent performance and lifetime
- ▶ High removal rate with low pressure

Product profile

Grit type:	Zirconia alumina
Grit range:	36-180
Backing:	x-wt cloth
Coating:	Closed
bonding:	Resin over resin
Special coating:	Cooling additive

Use

Applications

- Weld preparation
- Removing discolouration
- Sanding down
- Surface treatment
- Deburring
- Smoothing and blending of flaws

Materials

High-alloy steels; Other hard-to-grind metals
